

26th September 2019

Internship at FDA by M.Sc. part-II students

We the students of Acharya Marathe College have completed our Internship at Food and Drug Administration at Bandra. This internship duration period was 18th June 2019 to 18th August 2019.

This Internship was very helpful to us as we got hands on training on various Analytical Instruments like HPLC, HPTLC, GC, UV and they also taught how to operate these Instruments.

In this two months internship programme we worked in various departments of FDA like Drug, Food, Cosmetics and Ayurvedic. We performed assay test on various drugs & some chemical tests on food products like milk, oil, chana powder, chilli powder, corn flakes, etc. and cosmetics products like talcum powder of various brands, shaving cream, shampoos, etc.

All these things were new and very interesting for us. Analysts of FDA were very helpful and they shared ample of knowledge with us which is really helpful for future our careers in industries.

At the end of our Internship we received a Certificate as a Trainee at FDA.

The last but not least that we are very much thankful our principal Dr. V. Lele, HOD Ms. Chhaya Pawar & Ms. Sayli for allowing us to participate in internship programme in one of the leading organisation in Mumbai which is FDA.
