19th January, 2019

Department of Chemistry
Report on Grand Vidnyan Mela

Venue - Raje Shivaji Vidyalaya

A three days “Mega Science Fair” was conducted by Marathi Vidyan Parishad at Dadar from 11th January to 13th January 2019. Total 56 students from our college participated as a volunteers in this event. Mumbai's Six colleges had participated in this fair in which our college was one of them. The total number of volunteers were 152 for whole Science fair.

Before fair our 56 students were given training at Marathi vidnyan parishad by the experts in which they were given hands on training on the experiments based on science subjects Botany, Zoology, Physics and Chemistry. These experiments were demonstrated by our students successfully to the students and teachers of various schools and colleges who visited this fair. The number of students visited for the fair was 1862 with 65 teachers and 100 parents. Variety of experiments based on Science, Maths, Biology were demonstrated by volunteers.

After Mega fair event Marathi vidnyan parishad invited our students for their felicitation. These students received certificate and cash Rs.1500/- each and a T-shirt as a token of appreciation from Marathi vidnyan parishad.

We gained a lot of experience and knowledge. We thanks our Chemistry department and Marathi Vidnyan Parishad for giving us this grand opportunity.

India

Respected Madam,

Marathi Vidnyan Parishad and Indian Education Society jointly organized Mega Science Fair during 11-13 Jan.2019 at Raja Shivaji Vidyalay premises at Dadar (East). It was grand success.It had various exhibits / experiments / demonstrations in physics, chemistry, botany, zoology and mathematics. The response was over whelming. About 2300 school students and teachers visited this fair and expressed their satisfaction.

To explain the science concepts behind each of these exhibit / experiment / demonstration, we trained volunteers from different colleges. 51 student volunteers were from your college, who have major share in success of this fair. I express my sincere gratitude for supporting this noble cause. As an encouragement and a token of appreciation we had felicitated them by giving certificate and also little bit honorarium. I highly appreciate timely help, support and coordination of your colleagues Prof. Manik Tembe and Prof. Chhaya Pawar. I owe to their passion and dedication.

With this endeavor, we realized that there is tremendous urge and need for such active participatory type of science exhibitions / fairs. In future we plan to have many more such activities on regular basis. I anticipate your cooperation.

Please find attached herewith group photo for your kind reference.

Thanking you with best regards.

Jayant Joshi

REPORT OF FIELD VISIT TO MARATHI VIDNYAN PARISHAD

Seven students of FYBsc visited MVP with Head of department of Mathematics Manik Tembe and Ashwini Ranade . They Attended Lecture by Dr. Vivek Patkar on the topic "History of Mathematics Through postage stamps" and enjoyed the exhibition of postage stamps. Patkar sir presented power point presentation on postage stamps on different scientists. In Marathi Vidnyan Parishad students were explored with the different projects of organization as well as they visited the science laboratories, book library and the agriculture garden developed by the institution. It was a wonderful experience for students.
